

**Amendments to the Specification:**

Please amend the paragraph beginning on line 12 of page 8 as follows:

Figures 3A and 3B show two example arrangements for the electrical connection/s 70 on the circuit board 20, shown from the direction of arrow 'A' in Figure 1. The shielding member 80 is omitted in Figures 3A and 3B so as not obscure the arrangement of the connection/s 70. While in Figures 3A and 3B, the circuit board 20 is shown schematically by a dashed line, it will be appreciated that the circuit board ~~hard~~ may extend further than is actually shown.
